Self Freedom - The Rebirth

Self freedom is an inner state of a being which has to be cherished in every moment of life. Gifting yourself with your own freedom is the greatest feeling one can ever have. Are we gifting ourself with this precious feeling is a never ending question with all of us. Sometimes we think, that we invest too much of our energy and time for the sake of others. In doing so, in the process we actually forget to think about our life. Sometimes it is good and sometimes it is bad. When you feel it is bad, it is a high time to gift yourself your own freedom. Living for others is good but when you lose your own freedom and tranquility in that, you should definitely take a look on it with a sharp eye. How much ever we do with the external world, there will always be a gap between our inner judge (heart) and our conscience (mind) because inner judge operates with the mode of emotions and conscience operates with the mode of thinking ability. The freedom which is derived from heart is more beautiful than the freedom derived from conscience. This is because we as human beings, tend to utilise our child ego state for inner judge and adult ego state for our conscience. When you operate more from adult ego state, the amount of freedom which you gift yourself is very less as there is too much of intelligence domination in analysing life where the child plane is lost. It is an euphonic combination to balance between your inner judge and your conscience.

Self freedom is the only state which we can gift ourself without paying anything to the external world. Why to ignore and miss in receiving such a blessing from GOD. Infact, when you completely dissolve and experience your freedom, you actually create abundant space for others to be a part of your life. When they become a part of your life, you give birth to a new relationship which is a reflection that it is your rebirth through self freedom. When you withdraw yourself from external world, your inner world starts blossoming which in turn benefits the external world too. A small gift of freedom to yourself can bring about a pythonic change in the lives of others. There is nothing called "LONELINESS" indeed being lonely is being with your inner self, which has to be celebrated with immense joy. Recent research in people management reveals that few people are more productive in their profession when they work alone in absence of team. I believe that this is because of their gifting ability of freedom to their own self in periodic intervals.

The next thought which pops up in my mind is how to gift this great freedom, when we work in a team inspite of varied choices. The answer is simple and it is possible only when we respect and accept those varied ideas, choices and suggestions of others. You can try this in a short break of tea time in your office scheduled for this. When one of your ear is ready to listen to your ten team mates, at the end of conversation those ten team mates will finally leave the decision making to you and that is the beauty of withdrawing oneself from others, which is an opportunity created by you to experience your own freedom.

You can enjoy being with yourself only when you realise that you are a cream of the crop in GOD'S land. Life follows people who gift self freedom to their soul. Let's plunge in to 2016, by realising our self freedom.

SELF FREEDOM AND SELF LOVE IS A MELLIFLUOUS COMBINATION IN THE JOURNEY OF LIFE... !!!

Footboard travelling awareness campaign by Thozhan

"Step up 2 stay up" is an innovative campaign by Thozhan with other likeminded organizations to create awareness on Footboard travelling and to prevent the same. We are conducting such awareness campaigns in 67 places in Chennai. This is to represent the 67th Republic day week.

Thozhan (Reg No:1931/2007), a social reform group incepted on 14th Aug'07 by four youngsters with the vision of changing the society and make this country an wonderful nation. Thozhan has strong presence in Chennai with more than 2000 volunteers' base and also has teams operating in Tiruppur, Pattukottai, Madurai, Salem and Rajapalayam. Thozhan has wide area of social activities, such as Road Safety awareness, Blood, Eye and Organ Donation, Plastic awareness, Street

cleaning activities and Supporting Homes (orphanages or old-age homes).

Foot board travelling has been an important issue in Chennai city and it is one of a major cause for road accidents which endangers the lives of many people. More than 60% of foot board travelers are students (College/School) and more importantly, 90% of accidental deaths due to foot boarding are between the ages 16 to 24. We are the youngest country in the world and youngsters are the future of our country. We cannot afford to lose youngsters due to our ignorance.

Volunteers will be distributing pamphlets with messages of safe travelling in bus to the passengers in the bus as well as standing in the stop.

They will also instruct the passengers in the bus stop about the dangers of footboard travelling.

As part of Thozhan's larger initiative of "Accident Free Nation"

we are doing regular traffic awareness campaigns to spread awareness on road safety measures. Along with that we have resolved to conduct regular Footboard travelling awareness going forward.
